Hi Tom,

Here are my comments from the GWDPA review. As a whole, it looked consistent with the NOI, and answered some of my questions. These comments below haven't been reviewed by Paul yet, and I'll put them in with review comments from the second NOI submittal review. Since the GWDPA came in first, we owe you those comments now. I assume there might a few other comments related to the GWDPA as we look at the NOI.

I know Leslie is about halfway through her original comments for the second NOI review, and I have a good start on mine. Mike took the binder a day or two ago, and I assume he and Lynn will probably start shortly. At some point, I'll / we'll ask you some questions for clarification before sending comments to Paul to review. I hope the weekend went/goes well.

106.2 - Type of operations conducted, mining method, onsite processing, deleterious materials

Comment #	Sheet/Page/ Map/Table #	Comments	Initials	Review Action
	Omission	For consistency with the GWDPA (see App. C, page 5, paragraph 3), indicate that waste rock will be used for construction activities for the first few years. Should any deleterious waste rock be found, it should not be used for construction.	pnb	
	Page 9, para 2	Refer to the GWDPA for more details about processing.	pnb	
	Page 12, para 3	Refer to the cross-sections of the collection and sediment ponds (figures 4 and 5 in the GWDPA in Appendix C) in the section discussing the collection and sediment ponds.	pnb	

106.8 - Depth to groundwater, extent of overburden, geology

Comment #	Sheet/Page/ Map/Table #	Comments	Initials	Review Action
	Page 23, para 2	For consistency with the GWDPA (see App. C, page 6, paragraph 3), indicate that wells were drilled to the approximate maximum depth of the pits as planned.	pnb	

Peter
